SITEXCOLABEL
LASER CLEANER FOR ANILOX ROLLS

SITEXCO LABEL

The Sitexco Label Anilox Cleaning System L20 is a laser system designed using the Sitexco PLUS innovative technology and it is specifically for narrow web printers.

- Incorporating Sitexco PLUS cutting-edge technology, it is the fastest, safest, and most cost-effective option available.
- Cleaning times are between 5 and 15 minutes.
- Improving print quality as well as production plan since the rollers continue to function as new.
- Removing gears and bearings is not necessary.
- Helping sustainability projects. It does not require water or the use of chemicals, producing no waste and reaching more efficiency in cleaning processes.
- It is still a compact machine that will deep clean any solvent, UV or water-based ink, adhesives, varnishes, and coatings.
- Sitexco laser cleaning technology is safe for the environment, safe for the operators and safe for the aniloxes.

Sitexco Label L20 is an evolution of the L10 system, which incorporates the improvements suggested by our customers, to supply a system that really meets the needs of the narrow web sector:

- ✓ Standardized SLP programs
- ✓ Multi-cleaning option

- ✓ Focused and enhanced aspiration
- ✓ Rear opening to facilitate maintenance operations

TECHNICAL DATA

- 🕒 **Approximate cleaning time:** Depending on roller dimensions (between 5' and 15')
- ⚙️ **Operation:** Exceptionally simple

- ⚙️ **Optionals:** Not available / No dispense
- + **Accessories:** Supporting table

DIMENSIONS

Length:	1.235mm / 48,62"
Height:	1.020mm / 40,16"
Width:	575mm / 22,64"
Weight:	160 Kg

TECHNICAL SPECIFICATIONS

Maximum cleaning length:	850mm / 33,46"
Maximum length of the roller:	1050mm / 41,34"
Minimum diameter of the roller:	35 mm / 1,38"
Maximum diameter of the roller:	140mm / 5,52"
Maximum weight of the roller:	30 Kg
